

Subject Code: 01CO1302
Subject Name: Seminar
M. Tech. Year - II
Credits Earned: 2 Credits
Course Outcomes:

At the end of the course, students will be able to:

- Develop self-learning ability and Acquire conceptual knowledge about existing research in selected area.
- Identify future research directions.
- Create effective audio-visual presentation.
- Develop effective communication skills for presentation of seminar topic.

Teaching and Examination Scheme

Teaching Scheme (Hours)			Credits	Theory Marks			Tutorial/ Practical Marks		Total Marks
Theory	Tutorial	Practical		ESE (E)	IA	CSE	Viva (V)	Term work (TW)	
0	0	4	2	0	0	0	25	25	50

Guide Lines:

- Every student will select a topic for presentation. Topic should be related to latest developments taking place in Computer Engineering or Information Technology discipline. Student will read research papers related to the topic and understand thoroughly. After a thorough literature review, some future research directions will be identified. Students will be asked to make presentations periodically through the semester. At the end of semester, a seminar report will be submitted.
- Instructor will suggest topics for presentation. Students will be asked to make presentation regularly.
- Some well-documented reports will be provided to teach report writing.
