

## MY SUCCESS STORY

### I am

Vidita Dahiya  
Gandhinagar  
My batch  
B.TECH. Information and communication  
Technology, 2021

### Current Designation and Occupation

Working as FPGA Developer / VC++ Developer  
in Software Developing Firm at Gandhinagar.

### My Achievements

1) Winner of Rajkot City Hackathon (01/2020)  
and awarded Rs.30,000 cash by our  
Honourable CM Vijay Rupani.

### My inspiration

Why - To work hard and live a lavish life was  
my inspiration to step into this career. How - I  
chose c++ development domain as I am more  
interested in Coding work it is a challenging  
work requires lot's of brain storming. When -  
As I have done internships in coding domain so  
it gives more clarity about my interest and  
working capacity so through internship I came  
to know about specific career options.

### My Challenges

Biggest challenge that I faced was not getting  
any reply from the companies I applied for. So I  
worked upon my resume and my English, and  
redid in depth concepts of coding and also  
conducted a practice of aptitude and after that  
I was being noticed by the companies.

### My Invaluable Motivators

HOD of our department has helped me a lot  
during entire engineering. He continuously  
give motivation and continuous mentoring to  
work hard and get placement in a dream  
company. He also provided us many  
opportunities by setting mock interviews and  
aptitude practice to crack company interview.  
All Faculties of our department have helped to  
revise all subjects in depth concepts.

### Contribution from the Marwadi Family

MU provide platform to grow my skills and a  
part from that it provided us good  
environment and much needed resources  
make it brighter.

### My future plans

Immediate plan is to improve my personal and  
professional skills through company. Long -  
Term plan is to get my next job in a Reputed  
MNC.

### My way of being connected to Marwadi Family

I wish to remain in touch with you via not only  
social media, but also physical meeting is what  
I would like to have.
