Program Outcome

Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.	☆☆☆☆☆
Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.	☆☆☆☆☆
Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.	☆☆☆☆☆
Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.	☆☆☆☆☆
Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.	☆☆☆☆☆
The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.	☆☆☆☆☆
Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.	☆☆☆☆☆

About Company

Uffizio India is a daughter company of Uffizio GmbH, Berlin, Germany which operates since 1995. It was established in India year 2000 with the purpose of developing software for the European market. Thereafter, the company focused on own production and decided to develop the advanced featured softwares which they planned to sell globally in B2B business. To till date Uffizio is running successfully worldwide and providing advanced cloud-based software on international level. Innovative team always seeks to explore new ideas and technologies to make the company ahead in the competition. They have always worked smartly to any challenging task and have never given up on any critical issues that have made Company what they are today.
