

ACCESS TO PHYSICAL HEALTHCARE SERVICES INCLUDING INFORMATION AND EDUCATION SERVICES

Maintaining and advancing the health of individuals and communities requires access to information and education services as well as physical healthcare services. It includes a variety of elements that help guarantee that people may get the care they require to maintain their health and take care of any ailments or medical disorders.

Medical Facilities: Access to physical healthcare services involves the availability of medical facilities such as clinics centers. We provide round-the-clock ambulance services through 1 well-equipped ambulances & 108 ambulance station inside the university. These facilities are strategically located to ensure easy accessibility.

Healthcare Centre: Our established Health centre provide the following

- Free OPD service
- Free Transportation Services
- Laboratory Service
- Physiotherapy services

Healthcare Professionals: Qualified healthcare professionals, including doctors, nurses, and allied health workers, are there to for providing medical services.

Medical Equipment: Access to up-to-date medical equipment and technology is present for accurate diagnosis, effective treatment, and improved patient outcomes.

Health Information and Education: Providing accurate health information and education to the public is essential for disease prevention, health promotion, and empowering individuals to make informed decisions about their health. Many awareness programs are conducted throughout the year.

Public Health Initiatives: We have public health initiatives that focus on preventive measures, immunizations, and health screenings to detect diseases early.

Transportation and Infrastructure: Adequate transportation and infrastructure are crucial to ensure that individuals can physically reach healthcare facilities. We have bus service connectivity, a huge parking area, batter-operated vehicles and bicycles within the campus.

Emergency Services: Access to emergency medical services is critical in providing immediate care during life-threatening situations. We have an effective 24/7 emergency Ambulance service .
