

UNIVERSITY OFFER, MANAGE , DELIVER OUTREACH PROJECTS FOR THE LOCAL COMMUNITY?

(EDUCATION, HEALTH, INFORMATION SERVICES, READING, COMMUNITY
ENGAGEMENT, TUTORIALS)

In the past year, Marwadi University has significantly improved community participation, awareness, and outreach. Students actively participated in the programs that the university successfully arranged. These awareness campaigns have played a significant role in tackling important concerns like cancer prevention, infectious illness prevention, lifestyle diseases, Environmental concerns, vaccination drives, and sustainability right.

The institution has conducted comprehensive screening campaigns tailored to specific targets, ranging from under five children to institutionalized geriatric groups. Moreover, for the Villages adopted under the Unnat Bharath Abhiyan scheme, the institute has conducted more than 180 programs, benefiting approximately 3,000 families. By actively participating in various projects, the institution ensures that quality healthcare becomes accessible and acceptable to all.

One of the remarkable initiatives by the institution is empowering economically disadvantaged individuals by offering skilled courses, job-oriented courses and free education and training. This approach aims to equip candidates with the necessary skills to improve their employability and secure job opportunities in fields like foundry, auto mechanical, Technicians and Assistants to paramedics. By providing these courses without any cost, the institution is truly committed to uplifting the prospects of the less privileged.

In essence, Marwadi University exhaustive efforts have contributed to shaping a more health-conscious, informed, and resilient rural populace. It exemplifies a truly holistic approach to Engineering, IT, healthcare etc, making a positive and lasting impact on the communities it serves.
